Acknowledgements

The Hublistener capstone team would like to thank Dr.Smith for his supervision through this process. His input has been instrumental to our ongoing success. We would also like to thank Dr.Anand for his organization of the course and the faculty of engineering at McMaster for providing us the platform to do a project of this size. We would also like to thank all students, faculty and staff that have and will provide feedback on this project. Your feedback continues to fuel our passion to explore.
